Structure:

Cinematic Sound FX 2 contains many different SFX sound effects, separated into folders and subfolders to make it easy to navigate. The arrangement for the primary folders is like this:

- Accents
- Ambient Beds
- Impacts
- Transitions
- Whooshes

Each folder has a wide assortment of loops that all work together or independently. Each loop in a folder can be easily put together. So you can pick loops to create a whole song or use the sample of your song in just moments. They are easy to use, allowing for a speedy workflow vital for music production.

Recordings:

The sound design and recordings are created using high-end equipment to ensure the most precise sound. You'll be stunned by the reference-level quality, the wide variety of samples available, and the processing quality. Every loop is packed with a tempo and other information that is crucial to the loop. They're pre-mixed and ready for use with the perfect EQ and low compression. They've been meticulously performed professionally by experts using top studio equipment.

- 790 Loops
- 24 Bit /44.1 kHz
- 100% Royalty Free
- Format: Wav
