Alongside a range of smooth, silky one-line melodies ready to go in the background, 'Deep Technology Vocals, the 136 vocal loops contain a carefully crafted collection of sliced, repeated, or filtered loops that are able to inspire creative track concepts of their own.

Chris's performance strikes the perfect balance between emotional intensity as well as technical precision, meaning there's not a House music situation that is inappropriate as well with each file identified by tempo, key, and lyrical content; locating the perfect track is easy.

Additionally, it contains a tiny but well-crafted collection of drum, top and bass, FX, and music loops to back the vocals, or utilize as distinct elements on tracks on their own. This is not just a bonus material; mixing-ready beats, hooks, b-lines, and much more are geared for being incorporated into any modern hit.

Produced by House Doyen Ekoboy"Deep Tech Vocals is a one-stop voice shop for dancefloor-related projects of any denomination. In particular, the package includes 355MB of music consisting of 254 audio files in high-quality 24-bit stereo format in WAV, at tempos of between 125 and 128 BPM.
