Editing your product photography is easy and quick by using Hexastyle Product Enhancement for Photography Lightroom presets. This collection can be used to improve and fix any flaws you discover in your photos of products. This collection includes Lightroom presets for fixing exposure and color corrections, as well as finishing effects and much more. Now you can create stunning images that are clean and crisp in just a few mouse clicks. Ours presets for product images in Lightroom will correct any color casts that appear in the photos, making your whites truly white. It is possible to fix the white balance or sharpen the finer details. These presets have been designed to give your work an elegant look.
