Make Animations for Instagram in less than 3 HOURS: In this video series, I'll walk you through all the steps needed to create Animation from idea to finished product within less than three hours!
Animation is a highly laborious task, however being an artist, the animation is a great method to remain present to your audience on Instagram as the Instagram algorithm has been focusing on Instagram Reels above regular post.

Making humorous and short animations is easy with these tips

selecting a program that you've already used
In this case, Adobe Photoshop to draw the sketch, and Final Cut Pro to create animation.

Utilizing keyboard shortcuts
This can save some seconds per move you make, which will make you approximately 30% more efficient in this type of task.

choosing the kind of animation to use for each move

1. Flip book style
2. Jump cuts
3. Keyframes

employing the same drawing with modifications

I'll demonstrate that four mouth forms are all you need to create an animated character that say anything you'd like.

I've recorded the entire procedure, from beginning to end. Certain parts are speeded to make it easier for you to work faster however you'll be capable of following each step. I provide instructions and suggestions during the course. Plus, a few laughs may be in order.
