

Winsoft Native PDF for macOS v3.0 for Delphi 10.3-12 Athens Retail

2024-12-18 23:01:45 [label](#) [我要反馈](#) [下载页面](#)

is an easy-to-use library designed for Delphi developers who need to manage PDF files. It integrates seamlessly with macOS using the PDFKit framework, ensuring a smooth experience. This library is compatible with Delphi versions ranging from 10.3 to 12. When you register, you gain access to the source code, which you can incorporate into your applications without any additional fees.

Key Features of Winsoft Native PDF for macOS :

- 1. PDFKit Framework Integration: Takes full advantage of macOS's native PDF handling capabilities for optimal performance.
- 2. Compatibility: Supports Delphi 10.3 through 12, covering many Delphi environments.
- 3. Source Code Access: Registered users receive the source code, providing flexibility and control over customization.
- 4. Royalty-Free Distribution: This allows you to include this library in your applications without paying royalties, making it cost-effective for commercial development.
