Welcome to Archipelago, a community of photographers united by a passion for our craft and a growing collective of some of the world's finest Lightroom Presets and Post-production tools. Our presets and creative profiles are designed to support and enhance every style of photography: portraiture, landscape, wedding, commercial, editorial, and beyond. At the brand's foundation lies a holistic approach, marks of master craftsmanship in tools made "by photographers for photographers." With over 12 years of creating industry-defining post-production tools, we've learned that, like great artistry, creating great presets/profiles takes knowledge, time, dedication, and a willingness to change. Our creators are leading this ever-evolving industry through continuous learning and regularly developing new, cutting-edge editing tools for our Collective.

At (Red Leaf Studios Inc) Archipelago, we firmly believe in social, racial, & environmental justice. Since its beginnings in the Pacific Northwest, the Archipelago community has spread worldwide. We recognize that growth comes with responsibility, and we believe ours is to give back a portion of our revenue to various non-profits near our hearts. Through your generosity, Archipelago supports several non-profits that are dedicated to preserving our planet, and fighting for social & racial justice and equality.

You can quickly import presets or profiles with Adobe's Creative Cloud Photography plan (including Lightroom CC, Lightroom

- 平面设计    Photoshop
- Lightroom

- 1. Navigate to the Develop module in the Lightroom app.
- 2. In the Presets panel, click the plus (+) icon at the upper-right corner and choose 'Import Presets' from the menu. PLEASE NOTE, you can only click the plus (+) icon if you have images loaded in the Develop module.
- 3. In the import dialog that appears, select the downloaded ZIP file. Please note this needs to be the original ZIP file. Some browsers will automatically uncompress this ZIP file, but it needs to be a ZIP to install correctly. If your browser has extracted the folder automatically from the zip (Safari on Mac does this), you may need to right-click and recompress it into a ZIP or download the file with a different browser.

That's it! Once you have added the ZIP file, it will automatically extract the presets into the Develop module. They will also now be available in Photoshop ACR if you want to use your presets & profiles there.

**Otherwise, follow these steps to install for ACR only:**

- Open ACR (Adobe Camera Raw) in Photoshop (you can select a raw file to import to prompt it to open).
- Select the 'Presets' editing panel (the shortcut is Shift+P).
- Select the '...' in the top right corner of the Presets panel to open more options.
- Select 'Import Profiles & Presets,' and choose the ZIP file of the presets you wish to import.

United, for its long run. Ever since its infancy in the Pacific Northwest, the Archipelago community has spread around the world. We realize that expansion comes with an obligation, and we think ours will be to Give back a part of our earnings to non-profits committed to Maintaining our world and fighting social & racial justice and equality.

In the wildest of storms, there's mystery and magic. Since the winds roll, the crest and wreck of the wave, and the trees start to flex And influence; we're mesmerized by Mother Nature's power. This crazy experience goes to Your soul, which makes you feel like you are living - A section of a fantastic journey. And with every storm, there's the assurance of an equally deep silent, calm Attractiveness that yields us to this enchanting location.

Inspired by these powerful storms, the Tempest Crepuscular "sunbeam" color profile and the Nimbostratus "Atmospheric" B&W Profile Contrast Light and dark. The Crepuscular Profile imitates the Light, which may be observed radiating throughout the clouds after a thunderstorm. Such as the Nimbostratus clouds, even the B&W Profile Inside This set Provides you a Multi-level appearance to your work. On darker pictures, decreasing the profile number Will emulate a milder, more matte finish. On photographs Which Are evenly vulnerable or Brighter, raising the profile will create silvery and daring pictures. Adopt The wonder, the magical, and also the puzzle of Tempest.

The Tempest Collection contains 1 BW & 5 Color Presets2, also 2 Inventive profiles.
