**Aim Audio Exhale Trip Hop:** Welcome to the immersive world of Aim Audio's Exhale, a collaboration between Juno award-winning Dubmatix and the assassin turntablist Illorn. Dive into the essence of trip-hop as we seamlessly blend two musical eras, uniting the spacey, tripped-out sounds of '70s instrumentation – featuring electric keys, swirling pads, smooth reverb, and delays – with the heavy trip-hop beats reminiscent of the '90s Bristol scene, echoing influences from Massive Attack, Portishead, and DJ Shadow, all updated with a contemporary sound.

Embark on a sonic journey through 601 MB of trip-hop goodness, with WAV samples recorded at 24-bit/44.1kHz quality. Explore a plethora of drum and percussion grooves, keys, synths, scratched vocals, drones, atmospheric strings, and basslines that form the core of this musical tapestry.

Take a glimpse into the sonic landscapes through the demo track and loops, and delve deeper into the full specifications outlined below. Immerse yourself in the chilled, dreamy vibes of Exhale today, and you'll find yourself captivated by its unique allure.
