Flowers & Foliage: Drawing Plants & Botanical Illustrations in Procreate: Welcome to this beginner-friendly class, where you'll delve into the art of drawing stylized plants and botanicals. While I'll use Procreate to guide you through the class, please use your preferred drawing tools.

The beauty of drawing plants lies in the freedom to play with shapes. Abstract and stylize to your heart's content—so long as you incorporate essential elements recognizable as leaves or flowers, you're on the right track.

Throughout the class, I'll introduce you to simple methods for stylizing plant shapes and lead you through easy drawing exercises to boost your confidence in crafting unique plant designs.

Here's what we'll cover:

- Making studies from photo references
- Using shape language in our designs
- Creating a variety of leaf shapes
- Exploring different ways to draw flowers
- Bringing leaf and flower designs together in a vine or stem structure
- Drawing potted plants
- Simplifying grass and foliage

We'll start with quick studies from photo references, delve into shape language and generating unique leaf shapes, explore simple flower drawing techniques, and practice combining leaves and flowers in vine or stem structures. We'll also delve into drawing potted plants and simplifying grass and foliage. You'll have various techniques to incorporate into your future illustrations by the end.

This low-pressure, easy class is suitable for total beginners or anyone seeking some enjoyable plant drawing. We'll focus solely on sketching and drawing plants rather than creating a finished piece. It's a flexible project, allowing you to invest as much or as little time as you desire in exploration. I'll demonstrate in real time with no sped-up footage, ensuring you can easily follow along.

While I'll be using Procreate, you can seamlessly follow along with paper and pencil in your sketchbook or whatever drawing tools you find most comfortable.

If you're ready to embark on a fun journey of drawing plants, I'll see you in class!
