Dubstep has firmly established itself as a genre in the EDM scene, and we cannot be bored of it on Zenhiser. So we sat in our minds and attempted to determine the needs of producers in dubstep we've not yet covered and ..... voilà, a massive pack of FX sound effects specifically made for Dubstep! One of our producers was put into lockdown and weeks later, this baby emerged from the studio. Dubstep FX. Although we say it's small, the Dubstep Sample Pack is large, packed with more than 200 dubstep fx sound effects that will cause your jaw to drop. The essentials are all covered, including sweep fx sub fx, one-shots laser fx, atmospheres, and loop fx that will add an edgy rhythm to your tunes.
