TMS FNC Core v4.2.3.2 (02 Apr 2026) for Delphi & CB XE7-D12 Athens Full Source

2026-05-05 11:35:37

TMS FNC Core is a universal core layer designed for Delphi and C++ Builder developers, offering a unified codebase for creating versatile visual and non-visual components across platforms such as VCL, FireMonkey, LCL, and TMS WEB Core. Its abstract and framework-independent nature makes it a powerful tool for executing RESTful HTTP(S) requests, with support for both synchronous and asynchronous calling models. The framework excels in web interaction by enabling navigation to URLs and seamless visualization of HTML/JavaScript content using cutting-edge technologies like Edge Chromium, WKWebView, and Chromium.

One notable feature of is its ability to generate high-quality PDF documents from scratch or export existing components like TTMSFNCGrid and TTMSFNCPlanner from the TMS FNC UI Pack. This ensures a consistent and appealing visual experience, with SVG support for icons and images that maintain quality across varying screen resolutions. The framework also simplifies JSON handling, offering tools for importing, parsing, and exporting data, providing codeless visual responsive design, streamlining development, and enhancing adaptability to different screen sizes.

TMS FNC Core is a versatile and efficient foundation for cross-platform development, empowering developers to create engaging applications with seamless web integration, high-quality visuals, and simplified data handling.

Key Features of TMS FNC Core :

1. Universal core layer for Delphi and C++ Builder
2. Compatibility with VCL, FireMonkey, LCL, and TMS WEB Core
3. High-performance multi-platform codebase
4. Framework-independent library for RESTful HTTP(S) requests
5. Support for synchronous and asynchronous calling models

VCL Components Delphi

6. Web browser component based on Edge Chromium (Windows), WKWebView (iOS/macOS), Chromium (Android)
7. PDF document creation and export of existing components
8. Import, parse, and export JSON data
9. SVG support for resolution-independent icons and images
10. Codeless visual responsive design
11. Streamlined development process for consistent user experience across platforms.
