iTop Data Recovery Pro is a robust and user-friendly solution for effortlessly recovering lost or deleted files across various scenarios. Whether facing corruption, accidental deletion, or formatting issues on internal or external storage devices like HDDs, SSDs, or USB drives, this software provides a comprehensive data recovery toolset. Notably, it excels in ultra-fast scans and recoveries, utilizing an enhanced algorithm for swift and efficient data retrieval.

Setting itself apart with an impressive success rate of up to 99%, **iTop Data Recovery Pro** supports over 1000 file formats, offering users a 100% free visualization preview of their deleted or corrupted data. The preview function includes files such as PDFs, Microsoft Office documents, photos, and videos, clearly indicating recoverability. Additionally, the software introduces an innovative Windows data backup tool to preemptively defend against future data loss, offering an industry-leading backup and restore feature.

Prioritizing user safety and control, ensures a secure and reliable recovery process without needing online registration. The software operates offline, guaranteeing complete control over the data recovery journey. To initiate the recovery process, users download and install the software, select their preferred scan mode, preview recoverable files, and efficiently recover and save them. iTop Data Recovery Pro emerges as a go-to solution for users seeking a seamless, powerful, and secure data recovery experience on Windows systems.

Key Features of iTop Data Recovery Pro:

1. Recover lost or deleted files, documents, photos, videos, and audio.
2. Recovery of internal and external storage devices (HDDs, SSDs, USB).
3. Handle various loss scenarios: corruption, formatting, accidental deletion.
4. Built-in backup tool for data backup and free preview of lost data.
