Bring Your Illustrations to Life: Animate Your Art in Procreate Dreams: Meet Smitesh Mistry, a multi-disciplinary creative who thrives on exploring creativity across various domains. From illustration to videography, animation, and content creation, Smitesh has infused his fun and abstract style into numerous projects across diverse platforms and software. Now, he's diving into Procreate Dreams, leveraging its capabilities to elevate his creativity, unlock new stylistic avenues, and breathe life into his ideas through a fresh perspective.

In this class, Smitesh shares his expertise on harnessing Procreate Dreams to delve into new creative realms and infuse movement into Procreate illustrations. Here's what you'll learn with Smitesh as your guide:

- Prepare and import any Procreate illustration into Procreate Dreams seamlessly.
- Bring your characters to life by adding motion using keyframes, rigging workarounds, and ease in and out tools.
- Enhance your animation with texture and shadows using clipping masks and Fill duration.
- Put the finishing touches on your animation by adding micro-movements to minor elements.

Additionally, you can download Smitesh's original Procreate illustration from the class resources, allowing you to animate alongside him in real-time.

Whether you're a seasoned Procreate user looking to breathe life into your illustrations through animation or a novice embarking on your animation journey, this class equips you with the skills to create detailed looping animations. You'll walk away with a deep understanding of clipping masks, keyframes, and rigging workarounds that you can apply to any Procreate Dreams project, opening up a world of creative possibilities.
