

Winsoft OCR ML for Android v1.1 for Delphi & CB 12 Athens Full Source

2024-12-18 23:02:30

Winsoft OCR ML for Android is a powerful Delphi library tailored for recognizing text within images on the Android platform. Leveraging Google ML Kit, this library enables seamless integration of text recognition capabilities into Delphi 12 applications. With the registered version, developers gain access to the complete source code, offering flexibility and customization options for their projects. Furthermore, allows for royalty-free application distribution, ensuring hassle-free deployment without additional licensing concerns.

Key Features of Winsoft OCR ML for Android:

- 1. Utilizes Google ML Kit for text recognition in images on the Android platform
- 2. Compatible with Delphi 12
- 3. Complete source code included in the registered version for customization
- 4. Allows for royalty-free distribution in applications
