**TMS FNC WX Pack** provides Delphi and C++ Builder developers with a comprehensive suite of components that leverage advanced web technologies across multiple frameworks like VCL, FireMonkey (FMX), LCL, and TMS WEB Core. This single, high-performance codebase ensures seamless compatibility and enables the creation of cross-platform applications effortlessly.

Key features include versatile functionalities such as barcode and QR code generation, integration of device cameras for scanning, HTML memo editing with advanced formatting options, and local or online PDF viewing. Additionally, developers can play and interact with videos, display JSON data in a customizable format, and convert text to speech with native voices.

Furthermore, the pack offers OCR text recognition, dynamic .docx file generation, and mathematical formula editing. With web technology integration, developers can also render web-based controls using HTML, CSS, and JavaScript, enhancing application capabilities across platforms. In summary, the empowers developers to create feature-rich applications, improving productivity and user experience easily.

### Key Features of TMS FNC WX Pack :

1. Barcode and QR code generation
2. Device camera integration for scanning
3. HTML memo editing with advanced formatting
4. Local or online PDF viewing
5. Video playback and interaction
6. JSON data display with customizable formatting
7. Text-to-speech conversion
8. OCR text recognition
9. Dynamic .docx file generation

**所有软件资源**  
**100%安全**  
已检测 无病毒 无篡改
