

EverWeb Standalone v4.4.3 for macOS

2025-10-29 21:59:32

EverWeb Standalone is a user-friendly website builder that empowers users to create beautiful and responsive websites effortlessly without coding skills. With a drag-and-drop design interface, users can easily customize their sites, add automatic dropdown menus, and enhance visuals with various picture frame designs. The inclusion of Master Pages ensures consistent design across all pages.

The platform supports Google Fonts, allowing users to integrate a variety of fonts seamlessly. Adding site search functionality is easy with a simple click, providing visitors with a smooth navigation experience. **EverWeb Standalone** is not just a website builder; it's a comprehensive package that enables users to create 100% responsive websites with built-in blogging capabilities.

With , users can unleash their creativity without limitations. The platform allows the creation of unlimited websites, and users gain access to a vast library of over 600 built-in and third-party add-ons, known as widgets, to enhance their websites. Whether you're a design novice or a seasoned professional, **EverWeb Standalone** is designed to be the easiest and most versatile website builder, ensuring a seamless and professional web development experience.
