**3D Shoes! Nomad Sculpt Full Tutorial:** Great Characters deserve great shoes! We'll make a few "Vans" slip-on shoes in this course. I'm making them in the hope of 3D printing them as a part of an individual character. All you must have is iPad, iPad Pro, or Android Tablet, and Nomad Sculpts 3D application. In this class, you'll learn from scratch and work through an end-of-course rendering. I will guide you through the process slowly, step-by-step that anyone can follow through. 3D isn't necessarily terrifying any longer. I'll see you in class! - This was created using Nomad the Sculpt v1.76

**You'll require the following:**

- iPad / iPad Pro OR Android Tablet
- Nomad Sculpt Application
