Shadowify – Blur & Shadow Kit: Drop shadows in Photoshop Frequently look self-indulgent - Shadowify permits you to produce more organic shadows by Employing stepwise blur. You can create customizable drop shadows from scratch Using a blur or click present shadows. All preferences are customizable, which means you May turn away blur and make some horizontal shadows such as frequently utilized in Minimalistic layout. The management might even be corrected later via international light. You can store your favorite shadow and blur settings as presets to get later used.

- Total 360° Angle Control
- Save Load Limitless Presets
- Produce Soft Blur Transitions
- Flat or Profession Shadows
- Unit Values (px, in, percent,...)
- Works on almost any Layer Sort
- Last Settings Become loaded in panel launch
- Instantly change values each drag the tag
- Editable via International Lighting
- Control Gaussian & Motion Blur
