Please Note

1. Once you have completed downloading, the archive "085. 12 Kisses Photographic Overlays.zip is downloaded to the folder 'Downloads' or the folder you chose.
2. Unzip the archive to the folder. Do not be disappointed when the images in the folder have an uncolored background. There's Screen Blend Mode that lets you remove the black background and display only the object in Photoshop.
3. Open Photoshop, open an image you want to apply and follow the steps in the following steps.

INSTRUCTIONS

There are three ways for applying photo overlays. 1. - by using overlay actions (include) 2nd Utilizing Quickstart PSD course (include only in the PRO version) 3rd - the standard Drag'n'Drop method.

1ST Method: OVERLAYS Action

This is a more progressive method since it lets you easily apply overlays to any directory, including with other retailers. When you set the parameters for the actions, you are able to make your hotkey to F3 (for instance) so that with just one click, you can call the action.

1. Double-click the 'Overlay Actions .atn file to import it into Photoshop. After installation, you can access the Actions panel in Photoshop by clicking on "Window Actions'. There are two actions available: JPEG and PNG Overlays. The distinction between Overlay Action JPEG and Overlay Action PNG is that JPEG uses the Screen Blend Mode.
2. Search for "Overlays Action Click Play the action you want to play.
3. The Photoshop dialog box appears and asks you to choose the image. Continue to browse and locate the folder you extracted and choose the picture you like. This image will instantly be uploaded into the Photoshop folder where the image is opened.
4. Reflect, scale, or rotate the overlay if you'd like
5. Enter the Cmd (Ctrl) and enter, and the operation will generate an overlay layer and two adjustments layers. If you're required, apply a black brush to the layer mask in order to cover the image, if necessary and, within the adjustment layers, modify the level or color of the layer to make sure the overlay appears right for the image.
6. Save the image, and then present it to your customers. They will be delighted by the outcome

2nd Way: Quickstart PSD COURSE

This allows you to work with a photoshop image and then select the layer you want to overlay and make it visible. This is convenient since you can view it on the thumbnails for layers of the image however, it's a hassle to use in certain versions that use Photoshop the file might not properly open. This is an optional feature and is provided as-is.

3RD WAY: DRAG'N'DROP

3.1 Drag out of the folder any image to save it within the Photoshop file. If you have images with dark backgrounds, apply the

Blend Mode. To change the blend setting by double-clicking on the layer and the style window of the layer will appear. Select the desired blend mode, then move on through the steps. If overlays have transparent backgrounds there is no need to perform anything. 3.2 Scale and transform, reduce the opacity or even add the Layer Mask and paint over your Overlay, if needed.
