

Winsoft Burn CD-DVD-Blu-ray Component Suite for FireMonkey v1.7 for Delphi & CB XE7-12 Athens Full Source

2024-12-18 23:03:00 [label](#) [我要反馈](#) [下载页面](#)

Winsoft Burn CD-DVD-Blu-ray Component Suite for FireMonkey offers Delphi and C++ Builder developers a comprehensive solution for preparing and burning images to CD, DVD, and Blu-ray optical storage media. Leveraging the standard Windows Image Mastering API 2, this suite seamlessly integrates into FireMonkey applications developed with Delphi/C++ Builder XE7 through 12, supporting both 32-bit and 64-bit Windows environments.

Developed from scratch, this component suite provides a range of new functions and features for efficient image-burning operations. With native support for Image Mastering API 2 starting from Windows Vista and Windows Server 2008, developers can leverage advanced optical storage capabilities while ensuring compatibility across various Windows platforms.

includes royalty-free distribution rights, enabling hassle-free deployment of applications utilizing the component suite. Additionally, the suite includes source code in the registered version, allowing for transparency and customization to meet specific project requirements. For enhanced functionality with Recordable Blu-ray Disc (BD-R) and Rewritable Blu-ray Disc (BD-RE) media, integration with Windows Feature Pack For Storage 1.0 enables extended support and compatibility.

Key Features of Winsoft Burn CD-DVD-Blu-ray Component Suite for FireMonkey :

- Delphi and C++ Builder components are designed to prepare and burn images to CD, DVD, and Blu-ray optical storage media.
- Utilizes the standard Windows Image Mastering API 2 for seamless integration and compatibility.
- Compatible with Delphi/C++ Builder XE7 through 12 FireMonkey applications, supporting both Windows 32-bit and 64-bit.
