ExamDiff Pro Master Edition v16.0.1.21 for Win x86 & x64

2026-03-04 15:49:40

is a comprehensive file and directory comparison tool designed for developers, regular computer users, testers, and writers alike. It simplifies tracking changes in files and folders, conducting code reviews, and effortlessly merging different versions of files using two- and three-way diff and merge capabilities. With support for various file types, including source code, Office documents, and binary files, **ExamDiff Pro Master Edition** offers a versatile solution for comparing and synchronizing data across different platforms.

Its user-friendly interface and customizable features make it stand out among other comparison utilities. For developers, **ExamDiff Pro Master Edition** facilitates code reviews by visualizing code structure through syntax highlighting and allowing the comparison of executable files with built-in binary comparison. For regular computer users, **ExamDiff Pro Master Edition** offers quick navigation through differences, synchronization of files between PC and external media, and the ability to create directory snapshots for future comparison and archiving. Additionally, testers can validate test results, and writers can compare Word, Excel, and PDF documents using built-in plug-ins.

Key Features of **ExamDiff Pro Master Edition** :

1. Track changes in files and folders
2. Perform code reviews
3. Easily merge different versions of files using two- and three-way diff and merge
4. Share HTML and printed difference reports with colleagues
5. Compare a local website to an FTP server using the FTP plug-in
6. Ignore programming language comments to focus on important aspects of the source code
7. Visualize code structure through syntax highlighting
8. Compare executable files (DLLs, EXEs, etc.) using built-in binary comparison
