The Master Collection - 80 different designs for the Capture One PRO

Now it's simpler and more efficient than ever before to create my style and look for your own pictures. This is a brand-new package that includes 75 styles of color (presets) and five styles in black and white that are suitable for a variety of camera models in various lighting conditions. The styles are created specifically for Capture One Pro but you do not have to know how the program functions to utilize these styles. Simply install them, then apply them and you're ready to go. Easy to follow with clear instructions.

Check out the video to learn more and to learn how simple it is to utilize these presets to get an incredible outcome! Below, you will find some photos of the results before and after the use of the Capture One Pro presets.
