### Utopia - Preset Pack — KB:

This pack of presets contains 10 attractive Lightroom filter presets (+1 bonus preset). "Utopia - an imagined place or state of things in which everything is flawless". The name alone tells that this pack has a variety of beautiful, harmonious colors that not just look amazing for nature photos, but also for inside shots. The colors will give your photographs an incredible cinematic look, without looking fake or oversaturated.

### 1. Installing presets in Lightroom (CC) — Mac or Windows

These instructions are for Adobe Lightroom 1.3 and onwards.

- Open Lightroom CC and click on the edit icon at the top right. The icon looks like three sliders—three horizontal bars with circles on them.
- At the bottom of the screen, you will see a Presets button. Click this.
- The presets panel is now revealed.
- Click on the icon of the three dots at the top.
- In the dropdown menu select Import Presets.
- Now locate where the downloaded presets ZIP file is saved and select Import.
- All of the presets will now be listed in the Presets panel under “Utopia\_Preset”.

### 2. Installing presets in Lightroom Classic (version 7.3 or later)

The instructions are for the latest versions of Adobe Lightroom Classic, released in mid-2018. You need to have version 7.3 or later. For older versions of Lightroom Classic, see the instructions below.

- Open Lightroom Classic and go to the Develop module. You will see the modules listed at the top, right. You will be in the Library module when the program is first opened.
- On the left, you will see a section called Presets. You will see that there are already some basic presets listed. These come bundled with Lightroom.
- Click on the + icon at the top right of the section.
- Select Import Presets from the dropdown menu.
- You can now navigate to locate where the downloaded presets ZIP file is located. (LR\_NEW FOLDER) Select Import.
- Your presets will now be listed in the Presets section.
