Chris Orange – 4 in 1 Bundle: Take advantage of this exclusive bundle offer featuring 130 presets by Chris Orange, encompassing the complete range of Adobe Lightroom preset packs. This comprehensive bundle includes the acclaimed Edge of the World, Solace, Journeys, and the latest addition, Everyday presets.

Immerse your landscape photography in beautifully crafted colour grades that elevate your images. These presets are meticulously designed to add subtle tones and textures, enhancing your photography while streamlining your post-processing workflow.

Each preset is optimized for one-click edits, ensuring effortless enhancement for adequately exposed photographs. Adjustments can easily be made using the basic adjustment toolbar to achieve the desired exposure for images that are underexposed or overexposed.

While presets perform best with RAW files, they are compatible with JPEG files in Adobe Lightroom, Photoshop, and Camera Raw. However, it's important to note that RAW files offer superior dynamic range and colour options, resulting in more impressive results. Additionally, these presets seamlessly sync with Lightroom mobile for convenient editing on the go.

Compatible with Mac and Windows applications, these presets require Adobe Lightroom CC or Adobe Lightroom Classic 7.3 or newer versions. Transform your photography quickly and precisely using this extensive collection of presets by Chris Orange.
