CHITUBOX Pro v2.0.6 (Win)

2025-02-10 16:49:03　　label 我要反馈　　下载页面

CHITUBOX Pro:

The ChituAction and its related suite streamline 3D printing workflows with efficiency and precision. MagicSupport provides automatic, intelligent support generation for effortless, accurate printing.

Shortcut allows users to customize shortcuts, enhancing productivity, while Safety Inspection and ChituManager offer secure, monitored printing through intelligent detection and inspection. Tools like Cavity, Hollowing, and Feature Enhancement optimize models, ensuring hassle-free printing and material safety.

The software's fresh UI, textured models, and support grouping bring a visually appealing, efficient user experience. Batch and Automatic Support enable quick, bulk support creation, and manual support options give users full control over print adjustments. Cloud support parameters further enhance printing security and support reliability.
