The Riven collection is inspired by Type 100 peel-apart instant format film The Riven presets are based on this unique and distinctive film stock. The Riven collection includes three color-specific presets and two profiles. Additionally, there are three distinct film borders that can be applied in a single click, adding the features typically found in Type 100 film. The Profiles in this set were created to mimic the look of the film that has expired. You can further customize your edit using the 3 Color Cast presets. They give a warm glow to particular areas of your photograph.
