- 10 original Lightroom Presets for the Dark Coffee Color Palette
- 22 Quick Tools for White Balance, Exposure, Film Look, Grain, Vibrancy, and Other Things.
- Compatible with Adobe LightroomCC 7.5. Adobe Photoshop CS6 and later.
- Compatible with Lightroom CC mobile iOS and Android versions paid and unpaid
- You can choose between DNG or XMP presets. DNG presets don't include tool presets.
- This collection does not include LRT files for the older Lightroom versions.
- Three Installation Guides for XMP files and DNG files (Lightroom & Photoshop).

32 Lightroom presets have been carefully created for the Dark Coffee Lightroom Preset Collection. They are inspired by the rich chocolate tones of freshly brewed coffee. This unique palette features warm, sepia-colored hues that are reminiscent of the glowing harvest chocolate, salted caramel, and roasted chestnuts. This harmonious preset collection gives your photos a coffee-colored look with its custom-blended toning.

Ideal for: Travel, coffee, and Instagram photography, but also interior and other lifestyle images. It is best to shoot with natural light during overcast conditions or the morning and afternoon golden hours. The presets work best with photos that have lots of black, brown, or beige colors.

This is the ideal tool for social media entrepreneurs, stock photographers, content creators and Etsy sellers. It also works well for bloggers, web designers, hobbyist photographers, entrepreneurs, and anyone else who needs a quick editing solution to make photos look cohesive and branded.
