The Thin Blue Line by Bluezone Corporation is a cinematic sound library that has been made to fit the war-film genre The sample pack, which is free to download, includes ambients and backgrounds including orchestral and oriental sound effects as well as female voices blast sounds, weapon sound effects, and more. It's an essential resource for sound designers and producers for TV, film Ambient, and video game music. It's now part of the Bluezone release Corporation Thin Blue Line pushes back the limits of composers using an incredible Cinematic Sound Library. The library is divided into 4 folders (the hits, phrases for instruments and atmospherics with sound effects, as well as the textured vocals) This sample pack includes an extremely precise selection of sounds, i.e. shots from guns and rockets as well as after-battle ambients tanks explosions in the background, moods, as well as cannon shots. The new royalty-free soundbank provides the foundation to create pieces that have high-energy content. In addition, you'll get high-quality female vocal samples that provide a flood of emotions. This Cinematic Sound Collection will give you the most emotions to pictures.

This time, you'll be armed with an array of audio tools you've never seen elsewhere before. The library's content is available in 16 bit 44.1 kHz wav files that are available for download as well as Royalty-Free. Like the rest of the Bluezone library sound files, you are able to use them for your productions with no extra costs. The sample pack is appropriate for genres such as Breaks, Dubstep, Ambient Bass, Drum and Bass Electronica, Film Soundtrack, Video Game Audio, and many more.
