ModeAudio Woozy Guitar Loops WAV: Reduce the lighting. The mood is getting woozy! Welcome to the rich, soulful and deep sound of our new Mini Pack, bursting with an old-fashioned vibe and a slick, energetic character: Woozy Guitar Loops!

Inspiring with character and evoking moods that range from romantic silence to awe-inspiring mystery, The 106 royalty-free loops that are included will give you a profoundly nostalgic soundscape for your next track.

Professionally recorded, performed, and processed using our house collection of old electric guitars, amplifiers, and pedals. The Swiss Army knife, full of gloomy guitar styles, encompasses soft chord loops, arpeggios plucked giant riffs, rhythmic strumming, and melodic lead riffs soaked in a slick of warmth, a bouncing chorus.

From smoky LoFi Hip Hop and slick R&B to fuzzy Trip Hop, hedonistic Pop, lively Disco driving House, and everything in between, this sensual collection of 6-string serenity can enhance and elevate your music from all over the spectrum of genres.

The guitar loops, including licks, riffs, and riffs, are included in both dry and wet versions, which means you can adjust the wavy wooze by using your amp's sims and effects to create the perfect mood for your song. We've included 13 guitar tails samples to enhance your track to a smooth, natural decay.

The set includes six complimentary drum loops, as you can hear in the video above, and the six MIDI patterns used to make them so that you can begin building your next beat the moment after downloading.

Included:

- 50 FX Electric Guitar Loops
- 50 Dry Electric Guitar Loops
- 13 Electric Guitar Tail Samples
- 6 Drum Loops
- 6 MIDI Loops (Key & Tempo-Labelled)
- Tempos vary from 80 BPM to 120 Bpm
