SysTweak Advanced Driver Updater v4.6.1086.8640 Multilingual

2026-05-20 14:01:03

Keep Windows drivers updated all the time without going to the internet to search for them. **SysTweak Advanced Driver Updater** will check your computer for outdated, missing, or broken drivers and allow you to download and install the correct drivers as fast as a few clicks.

Regularly updating drivers is a great way to improve computer performance. It can enhance hardware performance, prevent system crashes, solve graphics, audio, printer, video, and gaming problems, and optimize your devices to run with Windows.

There are safety and convenience features as part of the software as well. Drivers can be backed up prior to an update; old drivers can be restored if a new driver causes issues; scans can be scheduled; drivers not desired to be updated can be excluded; and interrupted downloads can be resumed automatically when they are.

Key Features of **SysTweak Advanced Driver Updater**:

1. **Large Driver Database** — Provides access to many drivers for different types of hardware and devices.
2. **Quick Driver Scan** — Checks your PC for outdated, missing, or faulty drivers.
3. **Easy Driver Updates** — Downloads and installs driver updates with only a few clicks.
4. **Driver Backup** — Saves your current drivers before updating to prevent compatibility problems.
5. **Driver Restore** — Lets you return to a previous working driver if a new update causes issues.
6. **Better PC Performance** — Helps your hardware work properly and keeps your system more stable.
7. **Smooth Gaming Performance** — Updates graphics and gaming drivers for better gameplay and fewer errors.
8. **Fix Hardware Errors** — Helps resolve issues with printers, audio, video, graphics, and other devices.
9. **Scheduled Scans** — Automatically checks for outdated drivers at a selected time.
10. **Safe Updates** — Uses a monitored driver database to reduce the risk of unsafe driver downloads.
11. **Faster Downloads** — Downloads drivers from the cloud for quicker updating.
12. **Automatic Resume** — Continues downloads if your internet connection is interrupted.
13. **Driver Exclusion List** — Allows you to skip specific drivers you do not want to update.
14. **Windows Compatibility** — Supports the latest versions of Microsoft Windows.
