Total Uninstall Professional v7.6.2.367 for win x64 Multilingual

2026-01-09 10:54:39

Total Uninstall offers a seamless solution for effortlessly removing any program from your system. It thoroughly analyzes installed programs, generating an installation log through the "Installed Programs" module. This log enables a comprehensive uninstallation process, surpassing the capabilities of provided built-in uninstallers.

The application also features a "Monitored Programs" module, allowing real-time monitoring of system changes during new program installations. This ensures a complete uninstallation without relying on the program's default uninstaller, which might overlook residual files or modifications.

Moreover, contributes to system cleanliness by safely eliminating unnecessary files and registry items. Its Autorun Manager efficiently handles the Windows startup process, granting users control over which programs, services, or scheduled tasks automatically initiate during system startup. Additionally, the tool facilitates the seamless transfer of programs to a new PC, enhancing its versatility and utility.

Key Features of **Total Uninstall**:

1. Easily removes any program
2. Accurately analyzes installed programs for complete uninstallation
3. The "Installed Programs" module creates an installation log for comprehensive uninstallation
4. Monitors new installations with the "Monitored Programs" module
5. Ensures a complete uninstall without relying on built-in uninstallers
6. Safely cleans the system by removing unnecessary files and registry items
7. Autorun Manager controls Windows startup for optimized performance
8. Manages startup procedures by disabling unwanted programs
9. Facilitates the transfer of programs to a new PC
