

Film EMULATION – Lightroom Presets CreativeMarket - 5903125

2025-02-10 17:02:42 [label](#) [我要反馈](#) [下载页面](#)

Film Emulation presets are designed to be influenced by traditional film stocks like Kodak, Fujifilm, and Agfa. This preset is the best method to achieve an authentic film appearance. Film Emulation Presets is simple to use. It doesn't require you to alter anything. Simply one click can create the right mood and appearance. You can also alter the individual settings for each of the presets and alter the style of the preset. The creative possibilities are virtually endless. For the price, Film Emulation is an incredible price!

Editing images in Lightroom or Adobe Camera Raw has never been simpler.

- 1. Apply a preset
- 2. Adjust Exposure and White Balance.
