Blumentals Rapid PHP 2025 v18.5.0.273 Multilingual

2026-04-15 16:38:57

is a lightweight yet robust PHP editor and IDE meticulously designed to boost productivity in web development. Combining the features of a fully-packed PHP IDE with the swiftness of Notepad, it offers unparalleled speed and efficiency. Rapid PHP is the ultimate all-in-one solution for coding various web development languages with support for PHP, HTML, CSS, JavaScript, Smarty, XML, SQL, Apache, and more. It's advanced syntax highlighting, code intelligence, and powerful editor tools, including bracket-matching and code folding, streamline the coding process for enhanced productivity.

Featuring an integrated AI assistant, **Blumentals Rapid PHP** generates, modifies, and optimizes code effortlessly, while its compatibility with HTML5, CSS3, and PHP 8 ensures adherence to modern standards. The IDE's intuitive interface, with customizable options for text editor behavior and keyboard shortcuts, allows users to tailor their coding environment perfectly. Rapid startup times and superb FTP/SFTP/FTPS features for seamless online editing and publishing make Rapid PHP the go-to choice for developers seeking a lightweight yet powerful PHP IDE.

Key Features of **Blumentals Rapid PHP** :

1. Syntax highlighting for HTML, CSS, JavaScript, VBScript, PHP, Python, XML, WML, Perl, SQL, Apache, SASS, LESS
