## FastReport .NET & FastReport.Core Enterprise v2025.2.12 (23 Sep 2025) CRACKED

2025-10-15 17:09:08 label 我要反馈 下载页面

With the use of FastReport .NET, the user can build and create independent applications as well as reports. NET. In other words, it means that FastReport .NET can be used independently as a standalone reporting tool for all its users. It can include a powerful visual report for the process of creating as well as modifying the reports. The user application can run the

FastReport .NET includes the online reports designer only in the enterprise edition for its users for ASP.NET. It can connect to any database as well as any database to create queries. It has the forms of dialogues to the user report to prompt before running a report for the parameters. Last but not least, it can view the results as well as print and even export them in many other common document formats. It has certain advantages in that it is written in the C# format and contains managed codes, which is compatible with the framework. NET. The can be customized to the user's suit according to the need, and it has a reasonable price along with a licensing policy. It has basic support for the format of RDL for the process of exporting as well as importing. To be included that this can be utilized in the visual studio 2019 by Microsoft.

- It is a band-oriented report generator and it holds 13 kinds of bands accessible to all the users. Some examples are page footer, column header, group footer, overlay, subreport, report summary, and so on.
- It has a broad variety of record items that are accessible to all the users, such as text, matrix, table, images, shape, trademarks and also lines
- In this case, the reports can include many pages of layout, allowing the user's report to contain pay information and cover all of them in one document.
- · The table item, in this case, allows the users to build a tabular report with the use of several columns or even rows, just like MS Excel.

- It is very handy for the style of MS Word in the preview window.
- It can research text from the report, which is already ready.
- The process of navigation from the preview window is possible in this case and the specification of the user design as well as document.
- The user can determine when the item in the window of preview clicks. For instance, the user can build and display a new record with detailed information about the product that has been clicked on.

## Key Features of FastReport .NET:

- It functions along with the information obtained from the ADO.NET and is allowed to filter and sort the columns of data being researched, utilized along with their information rows. Everything can be accomplished with the use of a few mouse clicks.
- 2. You can connect directly to ADO.NET, MS SQL, and even a database based on XML. There are other connectors as well, back in the form of plugins.
- 3. It can acquire the information obtained from the company and the object of IEnumerable kind.
- 4. The report, in this case, can include sources of data such as text, tables, relations of DB, and even queries, making it difficult for the user to utilize the application directly. Also, the user can use the chart as well as questions directly from the document.
- 5. Utilization visual builder of the query in which the user does not need to find details about the language of SQL to make a query that involves several data tables.
- 6. The Fast Report .NET includes an integrated script engine that can support .NET languages such as C# and VB.NET.
- 7. The report has the potential to include conversation types to prompt the parameters until and unless the report is being
- 8. It comprises effective visual report designers for the process of creating as well as changing the report.
- 9. Connecting to the virtual database with the use of any table along with the creation of unique inquiries.

download FastReport .NET & FastReport.Core Enterprise v2021.3.16.0 (15 Jul 2021) + CRACK

- 10. The user can see the results as well as print or export them according to his wish in different formats and standards.
- 11. It has a complete source code available to fit the user's requirements.
