Jessica Drossin – Green Tone Correction Sampler 2022: Are you struggling with achieving the perfect green tones in your images? This sampler offers two specific shade corrections: transforming warm, vibrant greens into rich jewel-toned greens and softening them into cool blue-green hues. It includes a total of four green-color correction actions, which are exclusive to this sampler and are not included in JD Green Tone Correction Actions. Two versions are provided: one that affects all greens in the image and another that allows selective painting in specific areas only. These actions are compatible with Adobe Creative Cloud, Adobe Photoshop CS2-6, and newer Adobe PSE (Elements) 11+ (excluding earlier versions). Please note that this product is not compatible with Lightroom.
