UI8 – Iconix Sharp Line Icons: Iconix is created to make your website and mobile interfaces appear sleek, professional, and clean. With its pixel-perfect design, icons look crisp regardless of size. Three-line weights: moderate, regular, and bold allow you to use icons per the image's typeface and weight. Four hundred icons per line weight, divided into 26 popular categories—nicely organized Figma, Sketch component libraries, and an Iconjar file.
