Winsoft WebView for FireMonkey v9.8 for Delphi 12-13 Athens Full Source

2026-05-05 11:32:54

seamlessly integrates web content within your Delphi and C++ Builder applications. Leveraging the Microsoft WebView2 API, it empowers developers to embed web elements effortlessly. With compatibility spanning Delphi/C++ Builder versions 10 through 12, it ensures a consistent experience across platforms. **WinSoft WebView for FireMonkey**'s inclusion of source code in the registered version allows for customization and flexibility, while its royalty-free distribution in applications facilitates widespread usage without additional costs.

Key Features of **WinSoft WebView for FireMonkey**:

1. Integration with Microsoft WebView2 API
2. Cross-Platform Compatibility
3. Customization and Flexibility
4. Royalty-Free Distribution
5. Effortless Web Content Embedding
6. Seamless User Experience
7. Support for Web-Based Features
8. Comprehensive Documentation

所有软件资源 100%安全 已检测 无病毒 无篡改
