**Tropic Colour – Beauty Retouching:** The latest digital cinema cameras feature ultra-high resolution cameras... And most of the time it results in the skin tone of your subject and acne spots appearing sharp! This can be addressed by using Our beauty Retouching Toolkit! It used to be something you'd have to pay around \$1000 or outsource for "Retouching" post houses or make use of expensive and cumbersome third software to do...but now, you perform it in your editing timeline. It's even better, it can be an option to offer a service or upsell to all your customers to earn some extra money on edits and productions.

- 5 Presets
- and Different Strengths (Simple or Selective)
- Designed to work in Adobe Premiere & Davinci Resolve
- (.prfset and .drx) files in the formats
- Includes 2 Tutorials
- and examples included with each preset
