In just three hours, unravel the secrets of mastering Midjourney v5.2, Leonardo AI, Adobe Firefly, and Adobe Photoshop to craft photorealistic imagery brimming with life and dynamism. Drawing on techniques that have garnered tens of thousands of online views for AI expertise on Medium, this comprehensive course empowers you to consistently achieve natural, realistic images, faces, and models.

What you'll learn:

- Explore effective Midjourney prompt structuring, harness the power of Image Weights and Midjourney Multiprompts, and delve into specialized techniques to breathe life into your AI image generations.
- Unlock the potential of the Midjourney Vary Region feature, transitioning from standard AI art to photorealistic beauty and life-likeness. • Take charge of your creative process with Image Guidance in Leonardo AI, using photos or sourcing from platforms like Pexels and Unsplash to generate realistic imagery tailored to your vision.
- Combine the strengths of AI Generation platforms: Sequentially leverage Midjourney v5.2, Adobe Firefly, and Leonardo AI to push the limits that each platform alone cannot achieve.
- Utilize the Photoshop generation tool to enlarge images and create entirely new scenes and environments.
- Develop your unique art/illustration styles to curate a collection of consistent imagery ready for sale.

This course caters to AI enthusiasts, offering pro-level tips specifically designed for designers, artists, photographers, content creators, and stock photo/art developers.

Unlock the potential of selling your Midjourney and Leonardo AI illustrations and photo generations on platforms like Wirestock or Freepik. Create dynamic and lifelike generations that turn your passion for AI art into a lucrative source of income!

If you aspire to transition from an AI user to an AI master and wish to earn extra income from your creations, this course is tailored for you.

Who should take this course:

- Anyone curious about AI or looking to enhance their AI abilities to create dynamic images for selling on Stock Photo sites.
