1.
2.

The mobile Lightroom preset TROPICAL is tailored for enhancing tropical-themed photographs with an island-inspired and glowing aesthetic characterized by light blues.

Designed exclusively for mobile use, this preset aims to elevate tropical images, adding vibrancy and beauty. While offering flexibility, adjustments may be needed based on lighting, shooting style, or camera settings.

How to apply exposure and shading to your project in Lightroom using presets?

You can use "Mobile Lightroom Preset TROPICAL" to design your project.

Included in the package are a Tropical DNG file and mobile instructions in JPEG format. Additionally, tips are provided for further customization, such as adjusting temperature/exposure, shadows/black levels, and orange brightness. Installation instructions guide users through integrating the preset into the Lightroom app on their smartphones for easy application of desired images.
