dlSoft Barcode Server v6.0

2024-12-18 23:02:00

Barcode Server is a servlet that runs in IIS to give barcode images. Barcode Server might be licensed for 1D barcodes, 2D barcodes, or even both.

Barcode Server is a servlet that runs in IIS to give barcode images. It might be licensed for 1D barcodes, 2D barcodes, or equally and supports all significant barcode types including 2 of 5, 3 of 9, Australia Post, Codabar, Code 11, Code 39, Code 128, Code B, Deutschen Post, EAN- 8, Royal Mail 4 State, SSCC, SICI/SISAC, Swiss Post, Telepen (numerical and ASCII) and UCC14. Server attributes permit the barcode image to either be rendered or right rotated or inverted, and (for 1D forms) such as dimensions, bearer bars, margin indicators, and human-readable text attributes and rationale given.

dlSoft Barcode Server Great Features:

- Mechanically incorporates barcodes to Crystal Reports (XI or after) with an easy formula.
- Offers direct insertion in the host into Microsoft Office software using Insert Picture or user-customizable macros (using info from selected text in Word or Word chosen cells in Excel)
- Comprises a completely free Windows desktop program for saving top-quality images to picture files (BMP, EPS, GIF, JPG, PNG, TIF, and WMF formats supported). Supports batch picture conserving, Duplicate as Drop, and easy barcode label printing.
- Offers barcode images on your web pages.
- Acceptable for all versions of Windows Server (2003 or after)
- Easily editable to simplify formulae on customers.
