

## Watch Me Design a Pattern Collection: Creative Struggles & Mindfulness

2025-02-10 17:09:28 [label](#) [我要反馈](#) [下载页面](#)

**Watch Me Design a Pattern Collection: Creative Struggles & Mindfulness:** Welcome to a unique surface pattern design class that transcends the ordinary. Step behind the scenes as I transform my workspace into a filming studio, documenting the entire process of crafting a pattern collection from inception to completion. In an era of perfection and seemingly instant results, join me in embracing our imperfections and fostering mindfulness throughout the creative journey.

### In this immersive class:

- Witness the birth of the pattern collection idea, from concept to sketches.
- Walk through my process of planning and structuring a cohesive pattern collection.
- Brave the sharing of internal doubts, struggles, and abandoned project ideas.
- See how I navigate challenges and make decisions in real time until the collection is realized.
- Experience the creation process of 8 distinct pattern designs, unfolding from start to finish.

By candidly sharing my experience, I aim to cultivate mindfulness in your creative endeavors. As the lessons unfold, real-time information about the duration of each milestone will be displayed in the upper right corner. Expect valuable takeaways and recommendations for your work at the end of each lesson.

The narration you hear is drawn from the creative process diary I meticulously kept each day of filming. This class is ideal for intermediate levels or beginners already acquainted with creating pattern repeats. Join me in this journey where imperfections become part of the art, and mindfulness enhances the creative process.
