To search for similar products to Mattia Cellotto Animal Hyperrealism Vol II,

The content was recorded at 192KHz using the Sanken CO100K, a Sennheiser 8050 for the center image, and a pair of Sennheiser MKH8040 stereo microphones. The files are provided in stereo from the four microphones; however, an additional pair of CO100K was sometimes added to the sides.

The spectrum of ultrasonics that results is extensive and enables exact content manipulation.

The library also contains two more releases from Mattia Cellotto at no cost: Crunch Mode offers 230 crunchy sounds created with a wide range of fresh bread, vegetables, pizza crust, and frozen items. This Borax Experiment gets you a unique 158 gory, squishy, slimy, gooey sounds.
