I use different variations of my preset depending on what kind Of light was current while shooting. Please be aware that presets Aren't "one-click" and you are done - photographs will not be ready-to-go when they're Applied, as adjustments have to be made based upon your raw picture. Exposure, Temperature changes, and a few color changes need to be corrected for each Photograph once implemented, based upon your camera preferences while shooting, too As your personal preference. A tutorial movie Includes the preset package when Bought, at which I show you how you can import and use the presets. PLEASE READ ALL THE INFORMATION BELOW BEFORE PURCHASING OR EMAILING ME WITH QUESTIONS!

COMPATIBLE ONLY WITH Lightroom Classic CC v9.3.1 or newer.

COMPATIBLE ONLY ON: RAW picture files. These presets Are specifically made with raw image records in your mind. When utilizing JPG Documents, you'll need to make further alterations.
