平面设计　　Tutorial

Designing a Low Poly Bedroom and Bathroom in Blender 3.5: Embark on a creative journey in 3D design with "Designing a Low Poly Bedroom and Bathroom in Blender 3.5". In this course, you'll learn to craft minimalist yet captivating bedroom and bathroom environments using Blender 3.5.

The curriculum begins with "Setting Up Rooms and Items," where you'll lay the foundation for your design by arranging essential elements such as furniture, decor, and fixtures. Dive into Blender's intuitive interface and learn crucial techniques for modeling, positioning, and scaling objects to create harmonious living spaces.

As you progress, you'll delve deeper into the intricacies of low-poly design, mastering techniques to optimize polygon count while maintaining visual appeal. From sleek beds and nightstands to elegant sinks and mirrors, you'll learn to strike the perfect balance between simplicity and detail in your designs.

You'll receive expert guidance and insights to refine your skills and unleash your creativity throughout the course. Whether you're an absolute beginner exploring the world of 3D design or a seasoned artist seeking to expand your repertoire, "Designing a Low Poly Bedroom and Bathroom in Blender 3.5" offers a comprehensive learning experience to help you bring your creative visions to life. Join us and transform your ideas into stunning digital environments today!
