This set of Warm Amber & Apricot MOBILE Presets contains five Lightroom CC photo editing filters that give warm tones for your iPhone photos. This mini bundle is perfect for Instagram Lifestyle bloggers, influencers, and creatives looking to improve photos to the next level with only one click.

These edits are preset and are a slightly rich and golden appearance, yet remain simple enough to be used in daily life. Make use of these filters to create your perfect Instagram feed in a matter of minutes.

The Process:

- This listing contains a comprehensive PDF guide that provides step-by-step directions (including images) for setting to set up the Lightroom Mobile settings. The guide also includes hyperlinks that take direct you to the directory that contains the DNG presets. These DNG files are available in the purchase of the listing as well.
- It is important to note that you must be connected to a DESKTOP computer to access the ZIP file compressed in this listing.

WHAT'S INCLUDED:

- 5 Lightroom MOBILE presets (DNG)
- The Lightroom mobile app is free that works in conjunction with and without an Adobe subscription
- You'll require install the Lightroom CC app installed
- The detailed PDF instructions for the installation of a preset
- access to the Dropbox folder that contains the presets
- Purchase files **need to be opened on a DESKTOP** PC (compressed zip folder)

List of 5 mobile PRESETS IN INCLUDED:

- Warm Amber (Original)
- Cool Pink
- Neutral
- Vibrant
- Warm Style

NOTE ABOUT EDITING

- Remember that you may have to adjust the edit slightly depending on the photo and camera settings and lighting conditions.
- For your convenience for your next step, I've added a few free Lightroom editing tips in this list.
- I've added four different variants that are a variation of the Original preset to give you the best edit you can get!
- Be aware that the five presets do not differ in any way between the five presets. There are options to give you additional exposure, temperature, and color adjustments. You can select these according to your preferences.

Please note: This preset collection might not be compatible with the following kinds of images:

- Underexposed Images.
- Overexposed Images.
- Images with low-quality
