SubSystems RTF to PDF Converter v15.0 for .Net

2025-01-01 22:14:43

RTF to PDF Converter delivers a very simple and hassle-free way of converting from RTF to PDF format in your program. You may make only 1 function call to perform the conversion.

No additional external elements or programs will be needed if you use this specific converter. The converter comprises a highly effective RTF parser used by our TE Edit Control merchandise. Additionally, it comes with a strong PDF Generator utilized by our WinPDF merchandise. This converter combines the performance of TE Edit Control and WinPDF to offer you a cost-efficient, feature-rich, and powerful translator.

RTF to PDF Conversion supports these attributes :

- Fonts, point-size, various personality designs, and colours.
- Paragraph formatting attributes like centering, justification, indentation, etc...
- Complex components such as tables, nested tables, frames, header/footer, columns, shapes, etc...
- Support for PNG, JPEG, WMF, EMF, GIF, and WMF picture formats.
- Embedded and related images.
- Unicode support.
- Vertical and vertical text placement.
- Right-to-left and mix/Latin text.
- Embedded fonts.
- Lineup, rectangle, circle, and ellipse drawing items.
- Bookmark outlines.
- Hyperlink.
- Safety permissions and password security.

Code Output: The created PDF code could be written to a disc or it may be recovered in a memory buffer.

Programming Interface: Your program only uses function calls to perform the conversion. The Win32 and Win64 models contain the purpose and constant declaration documents for C/C++, Visual Basic, and Delphi. The item is usable in almost any environment that allows for phoning easy DLL functions.

The .NET edition of the item consists of pure C# managed code. The .NET variant may also be used inside an ASP.NET server application.
