10Tec iGrid.NET v10.0.30 (05 Jul 2021)

2026-10-04 21:25:08

IGrid.NET is a flexible **WinForms grid management** for its Windows Forms platform, which is part of Microsoft .NET Framework and .NET Core. Software programmers use iGrid for WinForms to construct highly flexible tabular interfaces. It's quick, feature-rich and also the perfect **unbound grid part** for WinForms .NET.

10Tec iGrid.NET is a flexible grid control for WinForms, a strong substitute for DataGridView and among the very best unbound grids available on the marketplace. Additional add-ons may be utilized to expand the core functionality; those are autofilter and print/print-preview capabilities.

This WinForms application component relies on the ideology of iGrid ActiveX grid control, but also enhances its ancestor a good deal. 10Tec WinForms grid has been rewritten from scratch to utilize the capacities of this new .NET platform.

One of the Key new features of 10Tec WinForms grid you may find:

- That the print/print-preview and autofilter performance;
- the group box above the column headers region;
- header with various rows which lets you combine column headers and/or horizontally;
- suspended, or non-scrollable columns and rows with customizable borders;
- brand new formatting options for cells - vertical text management, distinct text trimming alternatives etc;
- complete support for right-to-left style with a single boolean `RightToLeft` home;
- exceptionally flexible scroll bars - it is possible to create them constantly visible or concealed, they are sometimes semi-transparent or have added custom made buttons!

Programs with 10Tec WinForms grid part are manufactured chiefly in Microsoft Visual Studio .NET, but the grid may be utilised in other development environments letting you create applications for the. NET Windows Forms bundle. IGrid.NET works nicely in most 32-bit and 64-bit variants of Windows using the installed. NET Framework (all client and server variants - Windows XP, Windows Vista, Windows 7, Windows, Windows 8 and Windows 10; Windows Server 2003/2008/2012/2016/2019).
