VIDEOHIVE   After Effects   Project   平面设计

Make captivating explainer videos using this unique modular, 3D animation kit for characters!

- Compatible with an older version of After Effects (for After Effects CS4 and up).
- It is compatible with 1080p and 720p projects. (the animations are 1500x1500 pixels.)
- No plug-ins required.
- You can easily change the color of the Coronavirus characters - legs, body and nails, eyes, antennas, teeth as well as the shadow's opacity in the animations, using custom controls.
- Animations of all kinds can be combined with one the.
- Control of the idle duration. (e.g. regulate how long the character remains in his hands or how long a word is displayed to the screen)
- There is no limit to the number of placeholders you can use in animations where there is a Coronavirus character is displaying information on the board as well as taking in text. It is possible to add text and images within those placeholders (videos are not supported).
- Thinking bubble and speech bubble animations are also included.
- Utilize several versions of the character within the same project (for instance, one red and one blue Coronavirus within the same comp).
- Video tutorials are provided.
- PDF Documentation Included.
- It is free to use the font in this preview. The download link is in the manual.
