

Space Toolkit (PSD)

2025-02-10 16:44:47 [label](#) [我要反馈](#) [下载页面](#)

Space Toolkit (PSD): Project that lets you make the solar system of your dreams, as well as space-based graphics backgrounds, and educational tools swiftly and easily. Each element was created from scratch, so there are many distinct elements.

- The project includes three PSD files: two solar system templates to make it easy to start. Also included is a PSD that includes the main Space Toolkit to give you every possibility of creating your own graphics
- 30 planets are included, along with rings that can be added as an option, and two suns.
- 8 nebulas
- stars
- lights
- Backgrounds
