#### Archipelago Quest Tools 08 ExF Light Leaks:

The ExFilm family of presets reimagines the unique charm of expired film, bringing depth and nostalgia to digital images. Featuring eighteen meticulously recreated light leak effects and a versatile Vintage Tone tool, this set allows photographers to enhance photos with authentic, film-inspired light leaks and a soft, retro aesthetic.

With Quest Tools 08 ExF Light Leaks, users gain control over vivid, unpredictable light leak effects via Lightroom's masking tools, and the Vintage Tone overlay can be added to any preset, evoking the classic feel of analog photography with desaturated tones, gentle haze, and subtle grain.
